

**MMD  
EQUIPMENT**

- Fully steerable – up-to-edge compaction, maneuverable around obstacles, tight places, and confined spaces
- Walk-behind roller is easy and safe to operate
- Handle design eliminates vibration to operator; vinyl covered handle for better control and comfort
- Handle rises vertically for compact transport and storage
- Semi-transparent tank allows water level to be checked at a glance
- Drums powered by hydraulic motor – no need for adjustments
- Safety features include parking brake and headlamp
- Vibration and non-vibration switch

*This fully steerable double drum roller is highly maneuverable around obstacles, making it ideal for up-to-edge compaction and confined spaces. The roller can be used for asphalt patching as well as compacting soil, gravel, trails/paths, and more. The roller is powered by a world class Honda engine, and the drums are fully hydraulic — no need for adjustments. The roller can be used with or without vibration.*

# PaverPro

## Steerable Double Drum Roller

Model	PPSR-13
Operating weight (lb)	1653
Engine	Honda GX390
Fuel	Gasoline
Displacement	19.8 cu.in.
Engine type	Air-cooled, 4-stroke gasoline
Starting system	Electric
Horsepower	13
Vibration frequency (vpm)	3300
Certitifgural force	2653
Steering angle (degrees)	15
Gradeability	25
Speed (mph)	0-2.17
Drivetrain	Hydrostatic
Vibrating system	Eccentric shaft type
Rolling System	Double drums hydraulic series drive
Fuel capacity (gal)	1.7
Water tank capacity (gal)	7.9
LxWxH (in)	97.6x26.8x45.5
Length with handle up (in)	50
Compacting width (in)	25
Wheel base (in)	25.6
