Lynx Rite Trailers

Designed for use with MMD PowerPro Generators, Lynx Rite Trailers set the pace for strength, durability and portability.

- Provide superior strength with a uni-body design constructed of powder-coated ¼" solid steel that cradles the generator and adds protection.
- Low center of gravity for better towing balance and stability.
- Cadmium plated hitches, brake actuators, safety hooks and chains to help deter rust and extend component life.
- Oversized safety hooks and chains increase strength and durability.
- LED tail lights increase visibility and comply with existing NATM, NHTSA and DOT regulations.
- Heavy duty rear bumper is shortened at each end to prevent turning snags.
- All steel fenders won't crack, freeze or melt.
- Lockable storage box to safely house additional tools and equipment.

Model	Lynx Rite 25	Lynx Rite 45/65	Lynx Rite 100/125/150
